Reminder of screening examination

Dear parents,

The North Rhine-Westphalia State Centre for Health recently informed me that no confirmation of participation in the screening examination U? has yet been received for your child XX.

I would like to take this opportunity to remind you and additionally inform you that health examinations for children and adolescents are an important building block in their healthy development. Therefore, it is important that your child's general health and age-appropriate development are regularly checked by a doctor during the screening examinations. In this way, possible abnormalities or health problems in their development can be recognised and treated at an early stage. This way, your child can receive targeted support and assistance when necessary.

Due to the interfaces involved, there can sometimes be overlaps in the processing periods. I am aware of this and am constantly trying to improve the process. If you have received this letter despite having attended a screening examination, I ask for your understanding. In any case, I would be happy to receive feedback from you in order to be able to close any possible gaps.

If you have any questions or are unsure about the screening examinations, please feel free to contact your local paediatrician (Kinderarzt). In addition, we can offer you a non-binding and free consultation hour with a family, health and paediatric nurse.

You can get information about this from your local Kinderarzt and from me. Please do not hesitate to get in touch!

Enclosed with this letter, you will also receive a flyer containing some information on the individual screening examinations.

Furthermore, the flyer for the District of Viersen Family Guide and the corresponding school holiday calendar are also enclosed. Here you can find out about other offers in your area that are suitable for the

age of your children. If you have any questions about this, you can also contact me on 02162 39-1869 and on this particular matter at familienwegweiser@kreis-viersen.de.

Sincerely
On behalf of

Nina Becker

Enclosed

Flyer "10 opportunities for your child – the most important facts about the screening examinations U1 to U9".

Flyer "District of Viersen Family Guide – the online guide for families in the District of Viersen"
ehr geehrte Eltern,
